

TOWARDS THE STANDARDIZATION OF MOLTEN SALT LOOPS' INSTRUMENTATION AND COMPONENTS

MOSA and BES facilities

Presented by:

Dr. Margarita Rodríguez García

Thermal Energy Storage Unit

Ciemat-Plataforma Solar de Almería

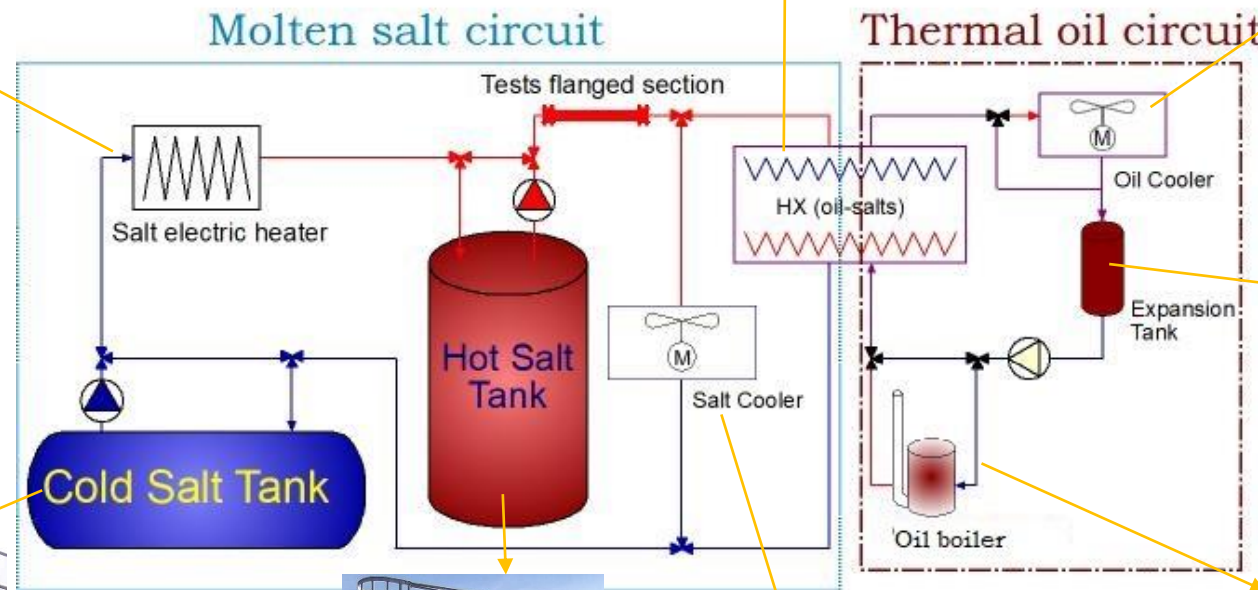

margarita.rodriguez@psa.es

Motivation and objectives

MOSA facility

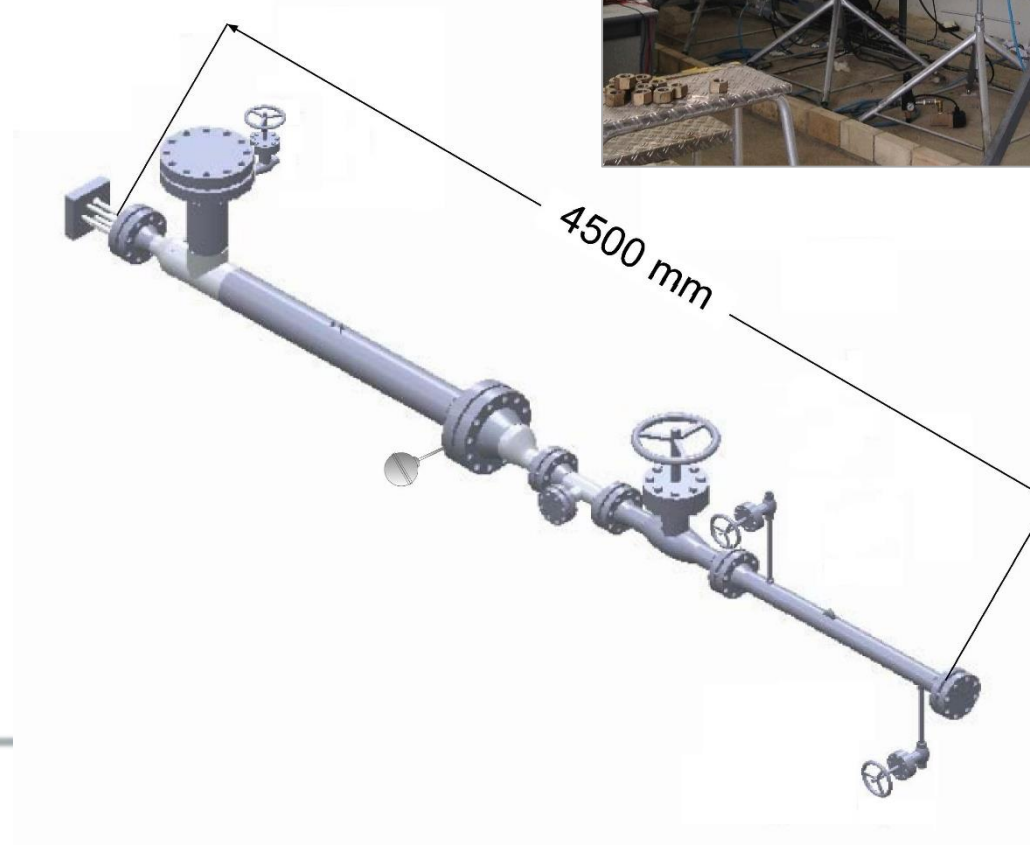

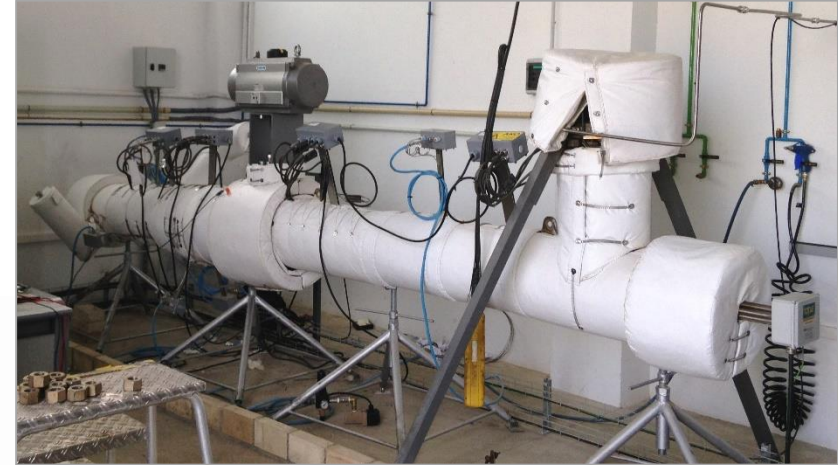

MOSA facility

BES I and II testing benches

	BES-I	BES-II
Design pressure [bar]	30	40
Design temperature [°C]	400	600
Molten salt amount [kg]	82	116

**Thank you for
your attention!**
